# ABOUT US

Reliable Polymer Solutions FZE is a full-service custom manufacturer of **rubber and metal products**, catering to diverse industries worldwide. With a commitment to quality, innovation, and customer satisfaction, we deliver high-performance solutions tailored to industry-specific needs.

## INDUSTRIES SERVED

We take pride in supporting various industries, including:

- Aerospace
- Automotive
- Oil & Gas
- Defence
- Pharmaceutical
- Agriculture
- Renewable Energy
- General Industries
- Marine
- Railways
- Food & Dairy

## MISSION & VISION

At Reliable Polymer Solutions FZE, we help B2B clients across industries by providing superior rubber and metal products, solving complex challenges, and fostering long-term partnerships.

We strive to stay at the forefront of technical advancements, investing in R&D, staff training, and sustainable practices. Our passion for innovation and customer service drives us to deliver eco-friendly, high-quality solutions for projects of all sizes—whether a small sealing component or large-scale industrial applications.

## PRODUCTS & SERVICES

- Rubber Rollers, Seals, and Moulded Articles
- Dam Gate Seals & Extruded Rubber Products
- Acoustic & Foam Products
- Silicone Rubber & Plastic Products
- Polyurethane (PU) Products
- Sheets, Mats & Rubber-to-Metal Bonding
- Custom Moulded Rubber Parts
- Metal Works & Machine Knives
- Conveyor Roller
- Airshaft Tube And Repair
- Conveyor Belt
- Boat Fenders

## MOULDED COMPONENTS

Description - O-ring, Diaphragm, Grommet, U-Seal, V-Seal, Gasket, Sleeves

Applications - Automotive, Construction, Engineering, Pharmaceutical, Industrial, Cement, Food Processing Industry..

Material - Silicone Rubber, FKM Rubber, Nitrile Rubber, EPDM Rubber...

## RUBBER ROLLER

Description - Nip Roller, Inking Roller, Feeding Roller, Guiding Roller, Idling..

Application - Offset, Flexo, RotoGravure, Bag Making, Lamination, Extrusion..

Material - Nitrile Rubber, Silicone Rubber, Neoprene Rubber, EPDM Rubber...

## EXTRUDED RUBBER COMPONENTS

Description - Rubber Strips, Round sections, Typical Geometrical section...

Applications - Automotive, Construction, Engineering, Pharmaceutical, Industrial, Cement, Energy.....

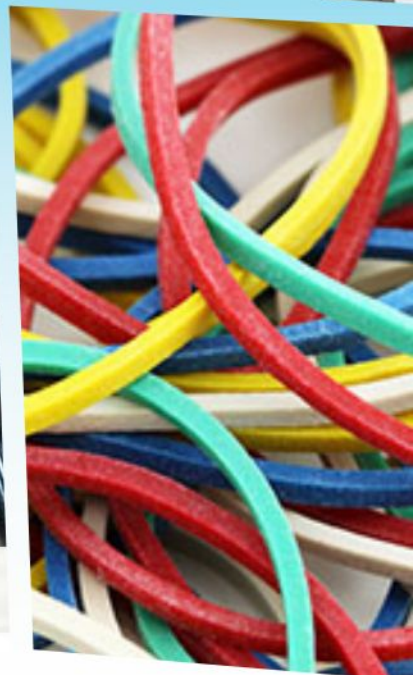

Material - Silicone Rubber, FKM Rubber, Nitrile Rubber, EPDM Rubber, Natural rubber

## POLYURETHANE COMPONENTS

Description - Sheets, Rods, Bars, Roller, Pulleys, Custom Molded sections...

Application - Automotive, Construction, Engineering, Pharmaceutical, Industrial, Cement...Material - Hardness 90-60 Shore A
